

## **MAINTENANCE PLUMBER**

### **DISTINGUISHING FEATURES OF THE CLASS:**

This is skilled work involving responsibility for efficient and workmanlike performance of a variety of plumbing tasks and odd jobs requiring a good knowledge of the trade. General instructions are received regarding tasks to be performed and permitting considerable leeway for planning the details of each assignment. Immediate supervision may be exercised over the work of plumber helpers or laborers.

### **TYPICAL WORK ACTIVITIES:**

1. Installs water service piping which includes wiping and testing joints;
2. Installs and repairs fixtures such as lavatory facilities, drinking fountains and sprinkling systems;
3. Repairs pipes and valve traps in heating systems;
4. Clears stoppage in waste, sub soil and other drains;
5. Inspects and repairs sump pump and sewage erectors;
6. Packs valves and makes other repairs on air compressors and vacuum pumps in ventilation systems;
7. Does related work as required.

### **FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:**

Good knowledge of the common practices, tools, terminology and accident precautions of the trade; ability to work from plan and specifications and to follow rough sketches and oral instructions; ability to lay out work for self and others; good motor, hand and eye coordination; manual dexterity; physical condition commensurate with the demands of the position.

### **MINIMUM QUALIFICATIONS:**

One (1) year of experience as a journeyman plumber.
